Cancer Cardiac disorders and Obesity are haunting the human race and WHO says that Non-communicable diseases are responsible for more than 71% of all deaths globally. KAHER's Shri B M Kankanawadi Ayurveda Mahavidyalaya has pledged to serve at its best by exploring Ayurveda in cancer and cardiac disorders. Ayurveda is being globally acclaimed for its preventive and therapeutic reason in recent past which also needs high deliberations in understanding of CANCER, CARDIAC and OBESITY disorders. This has taken shape in the form of dedicated Speciality courses which are being run successfully since last three years.

FELLOWSHIP COURSE IN AYURVEDA ONCOLOGY [FCAO]

Course started in 2017 with three successful batches running presently. Course is designed and aimed to offer an intensive clinical training in cancer diagnosis and management at different cancer institute [Conventional and Ayurveda centres respectively] namely Rasayu Cancer Clinic (Pune), Dr C D Sahadevan (Kerala) etc., through a period of two years. Scholars will be mentored under renowned Ayurveda oncologists for comprehensive and applied understanding of Ayurveda in cancer.

FELLOWSHIP COURSE IN AYURVEDA CARDIOLOGY. [FCAC]

Empirical treatment of cardiac disorders at KLE Ayurveda Hospital has evolved as super specialty practice and paved for specialty course in Cardiology in 2018. Course is aimed at enhancing clinical acumen for Cardiac care in one year through renowned Ayurveda Physician namely Dr S N Ojha. It aims at enriching human resource for comprehensive cardiac care.

FELLOWSHIP COURSE IN STHOULYA

Relentless work in clinical Panchkarma and Jeevanrekha Ayurveda Obesity Management Specialty Centre, Aurangabad has provided a strong base in establishing a full time super specialty course in Sthoulya [Obesity] in 2019. Course is aimed at enhancing clinical acumen in understanding, treating and developing newer protocols for obesity on individual basis in one year through renowned Ayurveda Physician namely Dr Mukund Sabnis.

In short interval of nearly three years since 2016-19, an encouraging response has been infused in speciality practice for cancer cardiac diseases and obesity managements which is able to gain attention of different types of patients. Cases of Oral and Breast cancer have reported more in number, following to these lymphomas, Gastro-intestinal cancers etc were noted similarly in cardiac disorders old MI coronary heart disease, Cardiomyopathy, Valvular heart disease, Ischemic Heart Disease etc. A unique and scientific way of treatment protocol has given fruitful results in weight management and also in minimising the co morbidities due to overweight.
